Curzon Energy Plc ("Curzon" or the "Company")

Unaudited Half-Year Results for the Six Months Ended 30 June 2023

Curzon Energy plc (LON:CZN) the London Stock Exchange listed oil and gas development company, announces its unaudited interim results for the six months to 30 June 2023.

CHAIRMAN'S STATEMENT

I am pleased to present the interim report for the Company covering its results for the six months ended 30 June 2023.

Financial review

The Company incurred a loss of US\$489,101 in the period. A majority of this loss comprised expenditures associated with maintaining the listing in London and on the analysis and due diligence of potential transactions.

Net cash of US\$6,927 as at 30 June 2023 (US\$20,421 as at 31 December 2022). Basic loss per share of US\$ 0.004 (period ended 30 June 2022: US\$ 0.004).

Given the nature of the business and its development strategy, it is unlikely that the Board will recommend a dividend in the foreseeable future.

Outlook

The Company's efforts during the course of the year focused on identifying, evaluating and executing an agreement to reverse an exciting opportunity into Curzon. While many potential projects and partners were considered, the Board found the majority lacking in either their ability to execute or in accessing the funding required to progress their respective visions.

While progress has been slow, the Board believes that finding the right partnership will be the key to its future and to realizing returns for all stakeholders. We look to be able to announce a transaction in the near term.

On behalf of the Board, I would like to take this opportunity to thank our staff and advisers for their hard work as well as our shareholders for their continued support.

We look forward to updating shareholders on our progress in due course.

John McGoldrick Chairman and Non-Executive Director

CHIEF EXECUTIVE OFFICER'S REVIEW

During the course of the year the Company explored lease renewal options at its historic Coos Bay coal bed methane project in Oregon, USA. Unfortunately, existing landowners responded with much increased fee expectations, figures that the Company felt would likely not be viable given the state of the project and the cancellation of the development of the nearby Jordan Cove LNG terminal. As such, the leases that the project consists of remain unrenewed, and the Company expects the project to be formally shuttered during the remainder of 2023.

Meanwhile, the Company continues to engage with a large number of interested parties regarding how best to take Curzon forward, most likely by injecting an asset or series of assets along with any required funding.

We hope to have additional announcements on these developments shortly.

Scott Kaintz Chief Executive Officer

Curzon Energy Plc Interim financial information for the six months ended 30 June 2023 NOTES TO THE CONSOLIDATED FINANCIAL INFORMATION

1. General information and basis of preparation

The Company was incorporated and registered in England and a public limited company. The Company's registered number is 09976843 and its registered office is at Salisubry House, London Wall, EC2M 5PS. On 4 October 2017, the Company's shares were admitted to the Official List (by way of Standard Listing) and to trading on the London Stock Exchange's Main Market.

With effect from admission, the Company has been subject to the Listing Rules and the Disclosure Guidance and Transparency Rules (and the resulting jurisdiction of the UK Listing Authority) to the extent such rules apply to companies with a Standard Listing pursuant to Chapter 14 of the Listing Rules. The principal activity of the Company is that of a holding company for its subsidiaries, as well as performing all administrative, corporate finance, strategic and governance functions of the Group. The Company's investments comprise of subsidiaries operating in the natural gas sector. The Company has the following subsidiary undertakings:

More information on the individual group companies and timing of their acquisition is presented in the Company's audited consolidated financial information and notes thereto for the year ended 31 December 2022.

2. Accounting policies

The Group Financial statements are presented in US Dollars.

Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards and IFRIC interpretations as endorsed by the EU ("IFRS") and the requirements of the Companies Act applicable to companies reporting under IFRS.

The preparation of the Group financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires the Directors to exercise their judgment in the process of applying the Group's accounting policies. The Group's accounting policies as well as the areas involving a higher degree of judgment and complexity, or areas where assumptions and estimates are significant to the Group financial statements are disclosed in the audited annual report for the year ended 31 December 2022 and are available on the Group's website.

In the opinion of the management, the interim unaudited consolidated financial information includes all adjustments considered necessary for fair and consistent presentation of this financial information. The interim unaudited consolidated financial information should be read in conjunction with the Company's audited financial statements and notes for the year ended 31 December 2022.

Going concern

The Group financial statements have been prepared on a going concern basis as the Directors have assessed the Group's ability to continue in operational existence for the foreseeable future. The Directors note that the Group has no source of revenue and will require additional funding to continue operations, and that there remains no guarantee that such funding will be secured or made available. Currently, the Company's operations are being financed by third party loans. The Group remains reliant on the continuing support from its lenders and shareholders and the expected support of future shareholders and there remains a material uncertainty as to the Group's ability to continue as a going concern. The Group financial statements do not include the adjustments that would result if the Group were not to continue as a going concern.

Basis of consolidation

The consolidated financial statements of the Group incorporate the financial statements of the Company and entities controlled by the Company, its subsidiaries. More information on the individual group companies, details and timing of their acquisition is presented in the Company's audited consolidated financial information and notes thereto for the year ended 31 December 2022.

At the time of its acquisition by the Company, Coos Bay Energy, LLC consisted of Coos Bay Energy, LLC and its wholly owned US Group. It is the Directors' opinion that the Company at the date of acquisition of Coos Bay Energy, LLC did not meet the definition of a business as defined by IFRS 3 and therefore the acquisition is outside on the IFRS 3 scope. Where a party to an acquisition fails to satisfy the definition of a business, as defined by IFRS 3, management have decided to adopt a "merger accounting" method of consolidation as the most relevant method to be used.

The Group consistently applies it to all similar transactions in the following way:

- the acquired assets and liabilities are recorded at their existing carrying values rather than at fair value; - no goodwill is recorded;

- all intra-group transactions, balances and unrealised gains and losses on transactions are eliminated from the beginning of the first comparative period or inception, whichever is earlier;

- comparative periods are restated from the beginning of the earliest comparative period presented based on the assumption that the companies have always been together;

- all the pre-acquisition accumulated losses of the legal acquire are assumed by the Group as if the companies have always been together;

- all the share capital and membership capital contributions of all the companies included into the legal acquiree sub-group less the Company's cost of investment into these companies are included into the merger reserve; and

- the Company's called up share capital is restated at the preceding reporting date to reflect the value of the new shares that would have been issued to acquire the merged company had the merger taken place at the first day of the comparative period. Where new shares have been issued during the current period that increased net assets (other than as consideration for the merger), these are recorded from their actual date of issue and are not included in the comparative statement of financial position.

The results and cash flows of all the combining entities were brought into the financial statements of the combined entity from the beginning of the financial year in which the combination occurred, adjusted so as to achieve uniformity of accounting policies. The comparative information was restated by including the total comprehensive income for all the combining entities for the previous reporting period and their statement of financial position for the previous reporting date, adjusted as necessary to achieve uniformity of accounting policies.

At 30 June 2023, 30 June 2022 and 31 December 2022, the group results include the results of Curzon Energy Plc, Coos Bay Energy, LLC, Westport Energy Acquisitions, Inc. and Westport Energy, LLC.

2. Segmental analysis

In the opinion of the directors, the Group is primarily organised into a single operating segment. This is consistent with the Group's internal reporting to the chief operating decision maker. Separate segmental disclosures have therefore not been included.

3. Loss per share

The basic loss per share is derived by dividing the loss for the year attributable to ordinary shareholders of the Company by the weighted average number of shares in issue. Diluted loss per share is derived by dividing the loss for the year attributable to ordinary shareholders of the Company by the weighted average number of shares in issue plus the weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares into ordinary shares.

The following reflects the loss and share data used in the basic and diluted loss per share computations:

Options and warrants, that could potentially dilute basic EPS in the future, but were not included in the calculation of diluted EPS for the periods presented:

6. Restricted Cash

Restricted cash of US\$125,000 comprises funds held as collateral to support stand-by letters of credit related to the Group's oil and gas properties. The letters of credit secure the reclamation obligations under the leases and state law. The cash can be taken by Umpqua Bank in the event the letters of credit are drawn on by the State of Oregon, Department of Geology & Mineral Industries (DOGAMI). The cash is held in the form of a Certificate of Deposit. In 2022, the Group recognised a provision for reclamation obligations equivalent to the entire restricted cash balance in recognition of the fact that recovery of these funds may only be possible following completion of reclamation work on these oil and gas properties. This provision has been offset against the restricted cash balance as permitted by IAS 32.
